

Rabbit anti-GATA3 antibody, clone SQab30328 (monoclonal)

Clone no. SQab30328

MONOSAN

Product name	Rabbit anti-GATA3 antibody, clone SQab30328 (monoclonal)
Host	Rabbit
Applications	IHC-P, WB
Species reactivity	Human
Conjugate	-
Immunogen	Synthetic peptide of Human GATA3
Isotype	-
Clonality	Monoclonal
Clone number	SQab30328
Size	100 ul
Concentration	n/a
Format	Purification with Protein A.
Storage buffer	PBS, 0.01% Sodium azide, 40% Glycerol and 0.05%BSA.
Storage until expiry date	-20°C

FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES

Rabbit anti-GATA3 antibody, clone SQab30328 (monoclonal)

Clone no. SQab30328

MONOSAN

Additional info

Application note: The dilutions indicate recommended starting dilutions and the optimal dilutions or concentrations should be determined by the scientist. Storage instruction: For continuous use, store undiluted antibody at 2-8°C for up to a week. For long-term storage, aliquot and store at -20°C or below. Storage in frost free freezers is not recommended. Avoid repeated freeze/thaw cycles. Suggest spin the vial prior to opening. The antibody solution should be gently mixed before use. Background: This gene encodes a protein which belongs to the GATA family of transcription factors. The protein contains two GATA-type zinc fingers and is an important regulator of T-cell development and plays an important role in endothelial cell biology. Defects in this gene are the cause of hypoparathyroidism with sensorineural deafness and renal dysplasia. [provided by RefSeq, Nov 2009]

Images

Immunohistochemistry: Formalin-fixed and paraffin-embedded ductal carcinoma human breast tissue stained with anti-GATA3 antibody [SQab30328].

Western blot: Mouse Brain stained with anti-GATA3 antibody [SQab30328] at 1:1000 dilution.
