

Rabbit anti-Stathmin antibody, clone SQab30348 (monoclonal)

Clone no. SQab30348

MONOSAN

---

Product name	Rabbit anti-Stathmin antibody, clone SQab30348 (monoclonal)
Host	Rabbit
Applications	IHC-P
Species reactivity	Human
Conjugate	-
Immunogen	Recombinant protein fragment of Stathmin
Isotype	-
Clonality	Monoclonal
Clone number	SQab30348
Size	100 ul
Concentration	n/a
Format	Purification with Protein A.
Storage buffer	PBS, 0.01% Sodium azide, 40% Glycerol and 0.05% BSA.
Storage until expiry date	-20°C

FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES

Rabbit anti-Stathmin antibody, clone SQab30348 (monoclonal)

Clone no. SQab30348

MONOSAN

---

**Additional info**

Application note: Storage instruction: For continuous use, store undiluted antibody at 2-8°C for up to a week. For long-term storage, aliquot and store at -20°C or below. Storage in frost free freezers is not recommended. Avoid repeated freeze/thaw cycles. Suggest spin the vial prior to opening. The antibody solution should be gently mixed before use. Background: This gene belongs to the stathmin family of genes. It encodes a ubiquitous cytosolic phosphoprotein proposed to function as an intracellular relay integrating regulatory signals of the cellular environment. The encoded protein is involved in the regulation of the microtubule filament system by destabilizing microtubules. It prevents assembly and promotes disassembly of microtubules. Multiple transcript variants encoding different isoforms have been found for this gene. [provided by RefSeq, Feb 2009]

Images

Immunohistochemistry: Human tonsil tissue stained with antibody [SQab30348] at 1:100 dilution.
